GROUP INSURANCE PLAN

Specialized solutions for groups of all sizes,
including businesses with as few as one
employee

GET THE BEST BENEFITS FOR YOUR GROUP, EVEN IF YOU'RE A GROUP OF **ONE.**

If you currently provide Group Benefits for your employees, you know that insurance companies share in very little of the risk when it comes to Rx Drugs, Health and Dental coverage. As your claims continually increase, your premiums do the same which only benefits the insurance company. Eating away at your bottom line.

It doesn't have to be this way.

Through our Group Benefit Program, your risk is spread across thousands of employees and hundreds of companies just like yours. With all companies treated the same at each renewal. For the past 15 years, this collective approach has resulted in very stable premiums year after year.
